Operations • Data & Process Improvement • Digital Solutions

Professional Summary

Final-year B.Tech (Cloud Computing) student with hands-on experience in business operations, product and catalog data management, and process digitization. Worked with marketplace sellers, hospitals and founders to find operational pain points, document requirements, coordinate teams and deliver practical improvements. Detail-oriented, data-driven and comfortable juggling multiple priorities in a fast-paced environment. Seeking a leadership development program to build a career in global operations and supply chain.

Core Skills

Operations & Process: Process Improvement, Workflow Digitization, Requirement Gathering, Process Documentation, Project Coordination, Cross-functional Collaboration, Stakeholder Management, Problem Solving
Data & Catalog Management: Catalog & Product Data Management, Product Listings, FSN Management, Data Accuracy & Quality Checks, Reporting, Excel, Google Sheets, SQL (PostgreSQL, MySQL)
Digital Commerce: Amazon Seller Central, Flipkart Seller Hub, Marketplace Performance, Advertising Campaigns
Technical: Python, FastAPI, REST APIs, React.js, JavaScript, Git, Docker, AWS (basics)

Experience

Developer & Digital Operations Intern Oct 2025 – Present
Frontease Technology (Remote)

- Managed multiple client accounts across healthcare and business, delivering projects on schedule while prioritising work by business value, timelines and customer impact.
- Worked with doctors, entrepreneurs and founders to understand operational challenges and convert them into documented requirements, workflows and digital solutions.
- Coordinated development, design, marketing and clients to keep execution and communication smooth across several concurrent projects.
- Improved application performance by 40%, supporting 1000+ concurrent users; built and integrated REST APIs in Agile cycles.

Operations Case Studies

Digital Commerce Operations — Amazon & Flipkart Sellers

- Worked directly with sellers to understand pain points in catalog management, product listings, advertising and marketplace performance.
- Maintained and reviewed listing and catalog data (including FSN management) for accuracy and consistency, and recommended workflow improvements to raise product visibility and customer engagement.

Healthcare Workflow Digitization

- Collaborated with 3 hospitals and 5+ doctors to identify operational challenges and opportunities to digitize manual workflows.
- Documented user requirements and processes, coordinated with internal teams, and supported implementation of the solutions.

Projects

Friendly Pocket — Offline UPI Payment Platform *React, Python, REST APIs*
Planned the user flow and built an offline-first payment MVP for international tourists.

AI Support Chatbot *Python, FastAPI*
Built an AI chatbot to automate common customer queries and reduce manual support effort.

Education

B.Tech — CSE (Cloud Computing), VIT Bhopal University 2023 – 2027
CGPA: 8.43/10 | Senior Secondary (XII): 76.4% | Secondary (X): 86.6%

Certifications

Google IT Support Professional Certificate • Cloud Computing – Distributed Systems Certification
